
EVALUASI 3
SEMESTER GENAP 2025/2026

Mata Kuliah : IFB 206 Komputasi Paralel
Program Studi : Informatika
Dosen : Lisa Kristiana Ph.D
Kelas : AA, BB, CC

Tanggal : 4 Juni 2026.
Waktu : 13.00 – 13.30
Sifat : Open/Elearning

1. Repository

Prepare the program that your group has made, upload them into the GitHub repository:

<https://github.com/Student-Embedded-Control-and-AI-Fest/CuffnCode>

Prepare also a GitHub page that documents everything related to the project. See this link as a reference:

<https://publish.obsidian.md/auralius/Published/CuffnCode>

2. Video demonstration

Make a video demonstration of the project that your team has been working on. Upload the video to the Lab's Instagram. The video duration is about 20 to 30 seconds.
